Or Telephone: Dial: 650-724-9799

Dr. Lee is Professor and Chair of the Department of Urology at The Ohio State University Wexner Medical Center where she holds the Dorothy M. Davis Endowed Chair in Cancer Research. She is also the Vice President of the OSU Physicians and Faculty Group Practice.

Dr. Lee completed her training in Urology at the University of Michigan and her fellowship in Urologic Oncology at the Memorial Sloan Kettering Cancer Center. She was a faculty member at the University of Michigan for 16 years rising in ranks to Professor with Tenure and was the inaugural Dr. Robert H. and Eva M. Moyad Research Professor. She was recruited to The Ohio State University in 2016 to lead the Department of Urology within the Wexner Medical Center. She is a highly respected clinician having been voted “Top Doctor in America” for over a decade.

Her medical professional focus is dedicated to improving the care of bladder cancer patients through advocacy, education and research. She has served the Bladder Cancer Advocacy Network as the President of the Scientific Advisory Board, as a current member of its Board of Directors, and as a Past-Chairman of the Bladder Cancer Think Tank. She is a past-member of the Society of Urologic Oncology Board of Directors and currently serves as its liaison to the American Joint Committee on Cancer. She also previously served the Board of Directors of the American Cancer Society, Lakeshore Division.

Dr. Lee is active in the education of students, residents, and practicing urologists. She has directed or been a faculty member of a postgraduate course at the annual meeting of the American Urologic Association for over a decade and has been a leader in its educational service through her roles on its Education Council and the American Urologic Association Update Editorial Board. She has played a key role in the board certification of urologists in America through her service on the American Board of Urology / American Urologic Association Examination Committee, the American Board of Urology Oral Board Examination Committee, and the Oncology Knowledge Assessment Test Committee of the Society of Urologic Oncology. As a newly appointed Trustee of the American Board of Urology, she will help to shape standards for the practice of Urology within the United States.

Innovation is important to Dr. Lee. Throughout her career, she has worked to improve the surgical outcomes for bladder cancer patients through interdisciplinary research, clinical trials, and outcome studies. She has authored over 160 publications, editorials, and book chapters and has participated in over 60 clinical trials. She provides scientific review for the National Cancer Institute and medical journals such as JAMA Surgery. She helps to set research and practice standards in Urology through her current service on the AUA Science and Quality Council and was also recently elected to the very prestigious American Association of Genitourinary Surgeons. Dr. Lee’s current research interest involves the use of artificial intelligence to improve bladder cancer staging.

Dr. Lee is originally from New York, though has lived in the Midwest for most of her adult life. She is married to William (Bill) Amato, a successful business owner, and has two children, Jackson (age 12) and Ashton (age 8) who attend the Columbus Academy in Gahanna. She enjoys travel, music, art, exercise, and a good book.
